[Top opportunities](#)

**GEO**

GENERATIVE ENGINE OPT.

via ChatGPT 75

via Claude 72

via Grok 82

The site has a strong presence with comprehensive JSON-LD data for Organization, WebSite, LocalBusiness, and Service types, which supports generative engine citation readiness.

[Show more...](#)**FIX**

Enhance the visibility of location-specific content to further improve citation readiness.

[Show more...](#)**AEO**

ANSWER ENGINE OPT.

via ChatGPT 80

via Claude 78

via Grok 78

The site provides detailed and structured content with high word counts and verified JSON-LD, aiding answer engine extractability.

[Show more...](#)**FIX**

Ensure all FAQ content is marked up with structured data to maximize extractability.

[Show more...](#)**STRUCTURED CONTENT**

ORGANISATION & HIERARCHY

via Grok 89
via Claude 74
via ChatGPT 89

Robust machine-readable hierarchy from verified semantic landmarks (header, nav, main, article, section), consistent H1-H3 samples, and 100% JSON-LD page coverage with Organization,...

Show more...

FIX

Address the inferred semanticHtml score (89) by ensuring every page includes explicit main landmark and increasing internal linking consistency (currently 62).

Show more...

▼ [9] TECHNICAL & ON-PAGE ELEMENTS

Good (80+) Caution (50–79) Fault (<50) Unverified — needs direct file/source access

JSON-LD richness

100

VERIFIED

Found schema types: Organization, WebSite, LocalBusiness, FAQPage, Service, BreadcrumbList, WebPage.

FIX

Expand schema coverage to FAQPage, Service, and BreadcrumbList where applicable.

Meta tags

100

VERIFIED

Unique title + description per page, plus Open Graph, canonical, and viewport tags on most pages.

FIX

Ensure every page has unique title, description, OG tags, and canonical URL.

Semantic HTML

89

INFERRED FROM RENDERED STRUCTURE

Heading hierarchy and landmark patterns suggest structured content, but semantic tags should be confirmed in raw HTML.

FIX

Confirm header / nav / main / section / article / footer are real semantic tags, not styled divs.

Alt text

100

VERIFIED

Most images carry descriptive alt text.

FIX

Mark purely decorative icons as alt="" so screen readers and crawlers skip the noise.

Internal linking

62

VERIFIED

Average 5.4 internal links per page; 0 orphan pages detected.

FIX

Cross-link related pages and deepen the link graph from high-traffic entry points.

Text-to-code ratio

100

ESTIMATED

Text-to-code ratio estimated from fetched HTML; raw source may differ.

FIX

Minify and defer template CSS/JS; confirm visible-text ratio above ~15% on raw source.

Mobile viewport

100

VERIFIED

Correct width=device-width viewport on every crawled page.

FIX

None needed — keep as is.

Robots.txt — AI allow-list

100

VERIFIED

robots.txt allows major AI crawlers.

FIX

Explicitly allow major LLM bots in robots.txt.

XML sitemap

61

VERIFIED

sitemap.xml found with 1 same-origin URL(s); 14 off-origin URL(s) excluded.

FIX

Keep sitemap updated when publishing new pages.
