[Top opportunities](#)

**GEO**

GENERATIVE ENGINE OPT.

via ChatGPT 40

via Claude 32

via Grok 45

The site lacks a fetched robots.txt and sitemap, which may limit generative engine citation readiness.

[Show more...](#)**FIX**

Ensure robots.txt and sitemap are present and configured to allow AI bots.

[Show less](#)**AEO**

ANSWER ENGINE OPT.

via Grok 50

via Claude 38

via ChatGPT 60

Extractable text with semantic headings and section landmarks is present, yet generic meta description and complete lack of FAQ or structured answers reduce answer-engine extractability.

[Show more...](#)**FIX**

Replace generic meta description with benefit-focused copy and add FAQ schema targeting common postbox queries.

[Show less](#)**STRUCTURED CONTENT**

ORGANISATION & HIERARCHY

via Grok 60
via Claude 28
via ChatGPT 70

Page uses nav, section, and footer landmarks plus multiple heading levels; however semanticHtml rule is only inferred and JSON-LD coverage is zero.

Show more...

FIX

Add explicit ARIA roles and verified JSON-LD Organization/LocalBusiness markup to strengthen machine-readable hierarchy.

Show less

▼ [9] TECHNICAL & ON-PAGE ELEMENTS

Good (80+) Caution (50–79) Fault (<50) Unverified — needs direct file/source access

JSON-LD richness 20

UNVERIFIED

JSON-LD is currently unverified and not present on the site.

FIX

Implement JSON-LD to improve structured data visibility.

Meta tags 0

VERIFIED

1 page(s) have missing or conflicting canonical tags.

FIX

Ensure one self-referencing canonical per page; resolve HTML/header mismatches.

Semantic HTML 51

INFERRED FROM RENDERED STRUCTURE

The semanticHtml rule is marked 'inferred' (score: 50). Landmarks nav, footer, and section are confirmed present, and the heading hierarchy is logical. However, the...

Show more...

FIX

Audit the rendered HTML to confirm that the main content area uses a <main> landmark, that pricing cards use <article> or <section> with appropriate ARIA labels, and that the 3-step process uses an ...

[Show more...](#)

Alt text

100

VERIFIED

Most images carry descriptive alt text.

FIX

Mark purely decorative icons as alt="" so screen readers and crawlers skip the noise.

Internal linking

40

VERIFIED

Average 0.0 internal links per page; 0 orphan pages detected.

FIX

Cross-link related pages and deepen the link graph from high-traffic entry points.

Text-to-code ratio

65

ESTIMATED

Text-to-code ratio estimated from fetched HTML; raw source may differ.

FIX

Minify and defer template CSS/JS; confirm visible-text ratio above ~15% on raw source.

Mobile viewport

100

VERIFIED

Correct width=device-width viewport on every crawled page.

FIX

None needed — keep as is.

Robots.txt — AI allow-list

40

VERIFIED

robots.txt not found or returned an error response.

FIX

Publish robots.txt explicitly allowing GPTBot, ClaudeBot, PerplexityBot, Google-Extended and CCBot.

XML sitemap

45**VERIFIED**

sitemap.xml not found or could not be parsed.

FIX

Generate an XML sitemap, reference it in robots.txt, and submit in Search Console.
